8907

ENGINEERING NEWS

A JOURNAL OF

CIVIL, MECHANICAL, MINING AND ELECTRICAL ENGINEERING

VOLUME LVII

JANUARY—JUNE, 1907

THE ENGINEERING NEWS PUBLISHING COMPANY

NEW YORK

INDEX

TO VOLUME LVII, JANUARY–JUNE, 1907

Subdivided into GENERAL (including *Technical Articles, Editorials, Letters to the Editor* and *Current News*); ILLUSTRATIONS: AUTHORS: ENGINEERING LITERATURE and CONTRACT PRICES.

GENERAL INDEX.

Abrasive materials and their use in shop Practice, by J. Royden Pierce.... *625
Abutments: Cracks in U-abutments.... 357
Accidents:
  Attempts to wreck passenger trains.. 388
  Avalanche of ice, Niagara Falls...... 300
  Battleship explosion, Toulon.......... 299
  Boiler explosions:
    Bridgeport, Pa.......... 115
    Penna. R. R.......... 169
  Breakwater, Buffalo, N. Y.......... 169
  Bridges:
    Atlantic City 115
    C., M. & St. P. Ry.......... 362
    Collapse of span at Washington.... 337
    Failure of concrete arch.......... 523
    Southern Ry.......... 580
  Buildings:
    Bixby Hotel, California..........20, 44
    Eastman Kodak Co., Rochester...... *1
  Chimneys:
    Chicago 409
    Louisville, Ky. *156, 242
  Coal mine, Liege, Belgium.......... 494
  Dams:
    Chihuahua 523
    Fort Collins, Colo.......... 721
  Dynamite explosions.....143, 299, 362, 659
  Earthquake, Jamaica.......... 79
  Earth slip in embankment of Wachusett Reservoir *464
  Electric fires 247
  Electric railways, due to location...... 621
  Elevated railway, New York.......... 247
  Explosions:
    Blast furnace at Pittsburg.......... 604
    Charlestown, W. Va.......... 523
    Forcite, New York City.......... 605
    Gas at Pittsburg.......... 79
    Gas main pipe.......... 50
    Ice machine, Chicago.......... 169
    Steam turbine 468
  Fires 428
    Dynamite magazine, L. I. City...... 246
    McGill University, Montreal.......... 433
    Philadelphia, Pa.......... 143
    Springfield, Mass.......... 143
    Tenares minè at Velardena, Mex.... 547
  Floods:
    Colorado River 15
    Mine at Johnstown, Pa.......... 494
  Flooding out fire in Lead, S. Dak..... 697
  Gas leakage, Winooski, Vt.......... 262
  Gas main pipe explosion.......... 50
  How to secure safety for workmen.... 184
  Industrial, Pres. Roosevelt's address.. 656
  Liability of employers, America and Europe 184
  Locomotives, boiler explosion on Atlantic City R. R.......... 115
  Masonry, Philadelphia..........*117
  Mine:
    Cave in, Bakersfield, Cal..........*318
    Explosions 14, 115, 143, 169, 220
    Statistics 169
  Mining statistics 189
  Pier and pier shed collapse, Baltimore 495
  Premature blast, Penna. Tunnel, N. Y. City 722
  Prevention of 415, 580, 656
  Railways:
    Attempts to wreck trains.......409, 433
    Balt. & Ohio 23, 523
    "Big Four" Ry..........115, 721
    Birmingham, Ala.......... 189
    Boston & Maine.......... 220
    Canadian Pacific..........79, 433
    Cause of accidents in England.......... 51
    Causes of accidents on curves.......... 381
    Cave in, Bingen, Germany.......... 59
    Chesapeake & O. R. R.......... 189
    Chicago, B. & Q.......... 547
    Chicago & N. W. R. R.......... 247
    Chicago, R. I. & Pac..........50, 79
    Cleveland, & S. W. Traction Co...... 632
    Connellsville, Pa., collision.......... 275
    Demand for government investigation 42
    Fowler, Ind.......... 461
    Grand Trunk R. R.......... 247
    Great Northern 433, 696
    Haverstraw, N. Y., derailment.......... 275
    Intercolonial Ry.......... 247
    Minn., St. P. & St. S. Marie R. R... 23
    Naugatuck, Ct., collision.......... 275
    New York Central, 143, 220, 275, *296, 299, 381, 386, 544, 604, 721
    N. Y., N. H. & H. R. R.......... 721
    N. Y., O. & W. R. R.......... 220
    N. Y., Phila. & Norfolk Ry.......... 494
    North British Ry.......... 23
    Pennsylvania R. R., 247, *264, 265, 275, 293, 381
    Pittsburg & L. E. R. R.......... 721
    Railway companies and railway accidents 44
    Reasons for 427
    Southern Ry..........388, 405, 469, 547
    St. Johnsbury & L. C. Ry.......... 433
    St. Louis & S. F. R. R.......... 189
    Statistics of 189, 547
    Terre Cotta, D. C., collision.......... *50
    Texas & Pacific.......... 433
    Union Pac. R. R.......... 50
  Reservoir failure, Tupper Lake.......... 49
  Statistics:
    Mine accidents in Great Britain..... 169
    Railway accidents 189, 547
  Steamers:
    "Berlin" foundered 247
    "City of Troy" burned 409
    "Dakota" wrecked 534
    "Hugoma" sunk 247
    "Imperatrix" grounded 246
    Lake passenger steamer burned..... 547
Accidents:
  Steamers: (Continued.)
    "Larchmont" wrecked 189
    "Marion" burned 256
    "Valdiva" wrecked 220
  Street railways:
    Los Angeles, Cal.......... 696
    Newark, N. J.......... 494
  Tidal wave, Dutch East Indies........ 79
Acid treatment for concrete surfaces, patents on 490
Action of locomotives on curved track.. 384
Action of the grand jury on the New York Central wreck at Woodlawn.. 386
Advertising positions; correspondence with applicants.......... 461
Air compressor, Vertical intercooler..... *45
Air condenser at steam plant of the White Motor Car. By R. C. Carpenter *260
Air Motor Hoists *214
Air required for drying purposes, volume of 481
Alcohol as a source of power.......... 572
Alloy steel: Development in production. 541
  Use in automobile construction........ 677
American Association for the Advancement of Science, Annual meeting, 1907 22
American Ceramic Society.......... 188
American Electrochemical Society, Annual meeting in Phila., 1907...... 517
American Forestry Association, Meeting at Washington, D. C. 76
American Foundrymen's Association, Convention at Philadelphia.......... 602
American Institute of Social Service... 187
American Railway Engineering and Maintenance of Way Association, Annual Convention, 1907, Chicago, 352-359
  Committee Reports 359
American Railway Master Mechanics' Association, Convention at Atlantic City, 1907.......... 694
American Society of Civil Engineers, Annual meeting, New York, 1907.... 112
American Society of Engineers, Spring meeting at Indianapolis.......... 627
American Soc. of Heating and Ventilating Engineers, Annual meeting, N. Y. City 142
American Society of Mechanical Engineers, Standard proportions for small machine screws..........*676
American Water-Works Association, Annual convention at Toronto, 1907.. 714
American Water-Works Association, Developments of.......... 712
Annexation of Lower California to the United States 326
Application of electricity to reversing rolling mills of high power. By D. Selby Bigge.......... 647
Application of flat-plate theory to slab floors of reinforced concrete........ 689
Apprenticeship system of the New York Central R. R.......... 695
Aqueducts: (See also Water pipe.)
  Katskill: Bids for.......... 247
  Los Angeles, Cal..........*93, 109, 329
  Construction 389
  Washington, Need of duplication...... 162
Arches:
  For locomotive fire-boxes.......... 627
  Is the elastic theory applicable to reinforced concrete arches?..........*490
  Oakland bridge, Pittsburg, Pa. By Willis Whited *528
  Piney Branch concrete bridge at Washington, D. C..........*682
Architects' code of ethics.......... 105
Architects, Licensing in Illinois........ 482
Architecture, Use of concrete.......... 67
Artificial production of nitrates from the atmosphere. By J. B. Van Brussel.*150
Asphalt pavements, Maintenance of. By S. Whinery 513-509
Audible cab signals as distant signals on the Great Western Ry., Eng...*486
Auditorium and opera house, Convertible combined, St. Paul, Minn...... 633
"Autogenous" welding with the oxygen-acetylene blowpipe..........*706
Automatic sounding recorder.......... 478
Automobile highway, Proposed, between Boston and New York.......... 362
Automobiles as destroyers of good roads. 209
Automobiles, Use of alloy steel in construction 677

B.

Baggage trucks, Electric, Pennsylvania R. R. 632
Balanced compound passenger locomotive with cab in front..........*570
Ballasting machines, Portable.......... 433
Bangs, Anson M. Bidder for Panama Canal contract *104
Battleships under construction for U. S. Navy 363
Beams:
  Continuity and cantilever action in reinforced concrete beams.......... 43
  Continuous beams of shafts having three supports 185
  Economic design of reinforced concrete. By F. W. Hanna 203, 245
  Formulas for conditions of economy in reinforced concrete beams.......... 245
  Tables for proportioning.......... 217
Bending moments and shears, Maximum live load for bridges carrying electric cars. By Frank P. McKibben. 372
Benzenberg, Geo. H., President of the American Society of Civil Engineers. By Don. J. Whittmore.....†106
Bituminized dirt roads at Santa Monica, Cal..........*543
Blasting, Comparative efficiency of large and small well-drilled holes....... 597
Blocks, Concrete:
  Concrete and reinforced concrete construction from the fire protection view 618
  Manufacture and use in facing Sandy Hill bridge over the Hudson River.*497
Block construction, Expansion joints in concrete structures, with special reference to. By L. F. Bellinger..*472
Block Signaling:
  New system on Pennsylvania Ry......*506
  Recent developments in.......... 514
Block Signals: Methods of remedying the interference of foreign currents. 25
Blue-printing Machine, Electric, for unit frames, by F. Lincoln Hutchins....*566
Boiler scale, in relation to heat transmission in boiler tubes.......... 373
Boiler Tubes, Steel, corrosion of on vessels fitted with turbine engines, by Commander J. Edw. Palmer.... 426
Boilers, White steam car boilers, by R. C. Carpenter *260
Bomb-proof pumping station at Gibraltar, by Albert Wilson.......... 580
Bond between steel and concrete........*335
Bond for joining new concrete to old..... 21
Bore holes, Determining the direction of and testing their water tightness..*568
Borings:
  Gatun, Panama Canal.......... 110
  New York State barge canal, by Emile Low *54
  Cost, by Emile Low.......... 326
  Wash, New York Rapid Transit Commission *58
  Wash Drill, Cost on the Deep Waterways Surveys 57
Brake shoes, M. C. B. tests.......... 719
Breakwater:
  Cleveland, Ohio, by Geo. H. Cushing..*565
  Concrete, Harbor Beach, Mich., by Emil Low *339
Brick and Terra Cotta Association, Combined convention, St. Louis........ 188
Brick tests, high records 279, 330
Brick versus concrete.......... 188
Bridges:
  Bascule, for the Balt. & Ohio R. R.... 388
  Between N. Y. City and New Jersey.... 189
  Bridge steel and ship steel unification of specifications for shape........ 622
  Brooklyn:
    Manhattan Terminal, Commencement of work on.......... 409
    Poulson system for terminal..........*576
  Brooklyn:
    Enlarging the Manhattan Terminal..*140
    Experimental test of terminal system 519
  Cantilever, Quebec, over St. Lawrence River *53
  Concrete abutment, S. B. & S. M. Ry..*187
  Decision of U. S. Supreme Court regarding bridges over navigable streams. 259
  Design for a reinforced concrete viaduct in Milwaukee, Wis..........*178
  Double deck swing.......... 7
  Drawbridges:
    Design of 265
    Railway, examination in N. Y. State. 265
    Report of Railroad Commissioners on protection 257
  Extensometer for recording deformations in bridge members under impact stress 681, 685
  First concrete arch in the U. S....... 427
  Hanging bridge over Royal Gorge, Colo. *217
  Highway, Flimsy construction.......... *71
  Inspection and maintenance.......... 482
  Long plate-girder and grade alinement changes on the Lehigh Valley R. R. at Towanda, Pa., by Philip H. De Witt *277
  Manhattan and Williamsburg new bridge loop 50
  Masonry arch at Orleans, France....*345
  Maximum live-load bending moments and shears for bridges carrying electric cars, by Frank P. McKibben 372
  Mississippi River, Strengthening the three-arch bridge between Minneapolis and St. Paul, by Frank H. Constant *171
  New bridge at Lyme, Ct.......... 211
  Oakland bridge, Pittsburg, Pa., by Willis Whited *528
  Venice, Ill., Over Mississippi River.... 469
  Piney branch concrete arch at Washington, D. C. *682
  Plate girder, novel method of erection.*274
  Projected steel arch over the East River at Hell Gate *583
  St. Louis, Mo., Bids for construction.. 362
  Raising a bridge to allow clearance for dredge *391
  Kansas City, Reinforced concrete approaches and column footings of a steel viaduct, by Kenneth Hartley..*132
  Reinforced concrete skew, Wabash Railway *323
  Sandy Hill reinforced-concrete arch bridge over the Hudson River....*497
  St. Louis, Mo., Bids for construction.. 362
  Suspension. For Monongahela River at Morgantown, W. Va. By W. H. Boughton *423
  Swellendam, South Africa, Resistance to flood *572
  Three-hinged concrete arches in Germany *480
  Transporter, Newport, Eng. 326
  Truss, An early American pin-connected truss bridge *511
  Walnut Lane concrete bridge, Philadelphia *117
  Washington, D. C..........*292
  Wooden, Report of Com. of Bldgs. of the Amer. R. R. Engineering and Maintenance-of-Way Assn. 353
Bronx Park, Derailment of the N. Y. Central, report of the state railroad commission 544
Building Code, Revision, N. Y. City.... 190
Buildings:
  Building department regulations and theoretical ideas of reinforced concrete design 597, 652
  Concrete, Competition for design...... 632
  Concrete and reinforced concrete construction from the fire protection view 618
  Condition of the steel work in a San Francisco building erected 13 years ago. By Frank B. Gilbreth......*124
  Construction of walls of terra cotta blocks 164
  Errors in municipal regulations for reinforced concrete construction. By C. A. P. Turner.......... 166
  Highest office building in the world.. *49
  Insane hospital at Norwich, Ct., Engineering features of.......... 211
  Metropolitan Life Bldg., N. Y. City, 48-story tower *138
  Prizes for designs for dwelling houses of concrete construction 221
  Reinforced concrete, Collapse of Eastman Kodak Co.'s Bldg..........*130
  Reinforced concrete warehouse, Tunis, tilted by settlement of ground under foundation 458
  Revision and opportunity for 294
  Tallest, Proposed in Pittsburg.......... 469
  The United Engineering Society....... *22
Business and finance in 1907.......... 711

C.

Caisson tunnelling, Patents.......... 462
Caissons, Reinforced concrete, Rotterdam, Holland ....†64, 137
California Debris Commission, Report... 522
Canal Boats, Electric haulage.......... 39
Canal cross sections, Effect of changes upon the rate of flow. By F. W. Hanna 630
Canal linings, Investigation by the University of California.......... 486
Canals:
  Calumet canal, proposed for Chicago Drainage District 128
  Cape Cod ship canal.......... 264
  Chesapeake-Delaware ship canal.. .. 79
  Chicago drainage:
    Effect on levels and navigation of Great Lakes 126
    Expenses 396
    Extension 363
    Report of the International Waterways Commission 126, 128
    Time of opening 131
  1,000-ton barge, Extract from report of State Engineer for 1905-6.......... 5
  Florida east coast.......... 632
  Georgian Bay ship canal 605
  Hennepin Canal 153
  New York State Barge:
    Wash drill borings. By Emil Low.. *54
    Cost of earth auger borings. By Emil Low 326
    Excavating, Machines used..........*607
    Progress of work..........*177
  Panama:
    Bids and changes in organization.. 246, 273
    Bids for construction 78
    Bid of the Oliver-McDonald combination 183
    Borings at Gatun 110
    Changes in officers.......... 134
    Excavation, March, 1907.......... 409
    Excavations 189
  Foundation for locks.......... [illegible]
    Lowest bidders for contract.......*104
    Rejection of Oliver-Bangs bid..134, 142
  Proposed waterway to the gulf........ 153
  Sheet steel for irrigation in Upper Egypt *430
  Truckee-Carson irrigation project, Use of Kutter formula in designing.... 245
Candle-power rating, Commercial decision of street lighting by arc lamps.. 493
Capacity of elevators and escalators for handling crowds. By Chas. D. Seeberger *482
Capacity for service an ideal in technical education. By Frederick R. Hutton 466
Car performance. By C. C. Riley....... 564
Car shortage. By J. W. Midgley........ 564
Car supply, Delays of freight cars in railway yards 651
Car supply and car pools. By J. W. Midgley 564
Car wheels:
  For combined interurban and city service, by C. Skinner......246, 273, *527
  New standard flange 209

*refers to illustrations and † to insets.

173197

Cars:
Clearance-measure, Balt. & Ohio Ry..*638
80-ft. flat, trussed with steel cables, Northern Ry., France............*638
Scarcity on American railways....... 70
Sleeping cars for electric interurban railways *74
Steam motor, White steam plant. By R. C. Carpenter *260
Steel box car, U. P. Ry............. 264
Steel frame gondola cars, Wabash Ry..*640
Superiority of steel over wooden cars... 380
Used in the McAdoo tunnel system.... 143
Cast iron:
Influence of nickel. By James B. Webb 650
Manganese in. By Herbert E. Field.. 611
Cave-in of an inclined shaft, Bakersfield, Cal. *318
Cement:
Annual convention of the National Association of Cement Users, Milwaukee, 1906 66
Cost and packing 246
Machinery for cement users 67
Production in the United States for 1906 379
Cement-testing laboratory of the U. S. reclamation service 475
Cements, Natural, protests against...... 357
Census of highway traffic in Illinois......*321
Center-bearing drawbridge, with pneumatic raising jack and turning engine *378
Center of gravity, height as affecting liability to derailment 295
Centrifugal pump installation *37
Chain, new weldless steel *696
Chain-drive:
High speed, Seattle, Wash., and Columbus, S. C. 637
Chaining method and apparatus used by the Topographical Bureau, N. Y. City. By George J. Falkinburg....*291
Channel tunnel, Opposition by British government 362
Chemical analysis, Apparatus for indicating carbon monoxide in air...... 132
Chemistry:
Artificial production of nitrates from the atmosphere. By J. B. Van Brussel *150
Mechanical examination and analysis of manufactured rubber 164
Use of lactose bile media in water analysis. By Daniel D. Jackson... 278
Chimneys:
Boston & Montana Smelter........... 23
Brick, in the San Francisco earthquake 429
Empirical formulas for stresses....... 135
Erecting an extension to the steel smokestack of a copper smelting plant *166
Failure of a 176-ft. reinforced concrete chimney at Louisville, Ky. By D. R. Lyman *156
Reinforced concrete, Design of.......... 21
Steel, Rapid work in lining with brick. 491
Steel, Rapid work in reconstruction....*289
Chord offsets, Table for roadmasters....*358
Chronic typhoid fever producer.......... 559
Cinder concrete, Reinforced, corrosion of steel. By William H. Fox.......... 569
Civic Art, Report of commission for developing new city plan for Columbus, O. 190
Civic government, Consolidation of Pittsburg and Allegheny............ 326
Civil engineers, Question of supplying instruments 596, 652
Civil service examinations:
Philadelphia, Pa., Results of examination for chief of bureau of water. 265
Inefficiency of, for filling important positions 262
Clay, percentage permissible in sand for cement mortar..................... 620
Clearance-measuring car for the Balt. & Ohio R. R., by J. H. Milburn......*638
Clinometer graduated to percentages of grade................................ 384
Cloudburst, Oklahoma City.............. 495
Coal mines: Methods used in surveying, by L. D. Tracy...................*583
Coal mining: Spontaneous combustion in coal veins 640
Coal:
Testing and Purchasing Coal for Steam Plans. By A. O. Doane........... 146
Total production in the U. S. in 1906.. 697
West Virginia government tests....... 660
Coaling ships at sea. Sea anchor for use with the Miller system.............. *40
Coffer dams, Use of steel sheet piling in building. By William G. Fargo....*374
Colorado River break:
Construction of levee below..........*545
Progress in closing 141
Special message of President Roosevelt to Congress urging action for closing 69, 77
Column formulas and the practical column 15, 162
Columns:
Formulas for practical designing....... 138
Simple stresses under eccentric load. By O. H. Basquin.................*420
Steel, Filling for concrete............ 429
Commerce:
Rubber production in 1906........... 242
Trade between U. S. and its possessions 221
Commercial preservation of mine timber 261
Common defects in steel structural work. By Edward Godfrey...............*394
Comparative disposition of organic matter by sand contact and sprinkling filters. By H. W. Clark.............. 607
Compressed air plant:
Hydraulic, of the Victoria mines, Mich.*492
Concrete:
Bond between new and old............ 21
Combination concrete, brick and steel shop construction *12
Comments on editorial on concrete failures 269
Curbing at Park Terrace, Hartford, Conn. 211
Expansion joints *652, 689
Forms for concrete construction. By Sanford E. Thompson.............67, 97
New system in floor construction......*177
Patents on the acid treatment for surfaces 490
Pile foundation for building, Salem, Mass. 121

Concrete: (Continued.)
Practical hints for concrete constructors. Part II. Some points in detail design. By W. J. Douglas...... *98
Prizes for designs for dwelling houses.. 221
Proportioning 67
Proportioning to secure maximum strength and density *599
Reinforcement for irrigation structures. By F. W. Hanna..........*370
Selecting the proportions. By William B. Fuller 65
Should a foreman be a competent designer? 269
Successes and failures................. 66
Treatment of concrete surfaces. By Linn White 65, 67
Value of burying wood in concrete..... *69
Waterproofing 68, 187
Concrete arch proposed for the Hudson River in 1885......................... 462
Concrete arches: Germany, three-hinge..*480
With old rail reinforcement. By C. L. Slocum *392
Concrete in architecture 67
Concrete basement floors, Expansion joints in 462
Concrete blocks 67
Concrete breakwater, at Harbor Beach, Mich., by Emil Low *339
Concrete bridge abutment *187
Concrete bridges:
Walnut Lane concrete bridge, Philadelphia *117
Concrete construction, "Restrained" concrete and full vs. general specifications 72
Concrete floor construction, A new system *177
Concrete form separator *379
Concrete gutter and curb for the Jamestown boulevard. By V. W. Dow....*222
Concrete vs. iron pipe culverts.......... 463
Concrete and reinforced concrete construction from the fire protection view 618
Concrete structures:
Expansion joints in, with special reference to block construction in dry docks and reservoirs. By L. F. Bellinger *472
Notes on expansion and contraction. By A. C. Lewerenz............*512, 513
Concrete telegraph poles 632
Concrete tile roofing for mills and industrial buildings 358
Concrete sidewalks 66
Condenser system, Air leakages in....... 274
Conduits:
Hints on design. By Harold Petterson.*540
Reinforced concrete form for concrete conduits. By W. L. Butcher *352
Connecticut Society of Civil Engineers, Annual meeting, Hartford, Conn... 210
Consolidation of Pittsburg and Allegheny 326
Construction of the levee below the recent Colorado River break. By C. W. Ozias *545
Construction of new Catskill water supply, New York City, official beginning 720
Contact filters, Comparative disposition of organic matter by sand and contact filters. By H. W. Clark.... 607
Contracts and contractors:
Basis of payment for structural steel work 183, 267
Bid for energy developed at water power plant of Chicago drainage canal 279
Chicago tunnel system 275
Cost of steam shovel work by railway force and by contract. By John C. Sesser 68
Electric shovels for railway and mining excavation *63
Execution of contract work from an engineer's point of view. By John S. Ely 38
Panama canal, Lowest bidders *104
Question of inclusion of rivet heads in steel weight estimate 541
Responsibility of the engineering profession for the conduct of public contracts. By Major Cassius E. Gillette 587, 595
Slipshod work of contractors and engineers 329, 384
Test case of eight-hour-day law on government work 221
Why do contractors do slipshod work?. 384
Contraction and expansion of concrete structures. By A. C. Lewerenz. *512, 513
Contours on preliminary surveys 463
Cooperation between makers and users of pulverizing machinery 713
Copper, Use of sulphate of copper in filtration. By Dr. Adolphe Kemna.60, 69
Copper depositing process. By L. Ramakers *402
Copper sulphate:
Use at Pawtucket, R. I., to prevent the clogging of sewage filter beds by blanket growth of micro-organisms 379
Use as a preventive of tastes and odors in public water supplies.......... 573
Corrosion of steel boiler tubes on vessels fitted with turbine engines. By Commander J. Edward Palmer 426
Corrosion of steel in reinforced cinder concrete. By William H. Fox...... 569
Cost data:
Comparative cost of contract work and Navy Yard work on battleship Connecticut 180
Construction of the Alaska Central Ry. By William G. Atwood *199
Construction and operating expenses of the municipal electric lighting plant at Burlington, Vt. 594
Cooking by electric heat and by fuel.. 333
Earth auger borings on the New York State barge canal. By Emil Low.. 326
Economic design of reinforced concrete. By F. W. Hanna......203, 245
Economy in the design of reinforced concrete beams *686
Hauling crops from farms to shipping points. By Frank Andrews 419
Mule haulage and electric haulage for mines. By M. F. Peltier 271
Municipal electric lighting plant at Burlington, Vt. 594
Property survey and its cost *30

Cost Data: (Continued.)
Steam shovel work by railway force and by contract. By John C. Sesser.... 68
Steel rails for electric railway feeders. By Julius Alsburg 40
Subdivision of cost of fireproofing city buildings 160
Transportation by wagon on common roads 428
Wash drill borings on the deep waterways surveys, 1897-1900 57
Cost-keeping in the U. S. reclamation service 445
Couplers, Lateral clearances 720
Cranes, Balanced cable, Erie R. R. tunnel *204
Cremation in Great Britain 351
Crowds, Comparative capacity of elevators and escalators for handling. By Charles D. Seeberger *482

INDEX TO ILLUSTRATIONS.

A.

Abrasive wheels.... 627
Accidents:
Boat house, Ottawa, Ont.... 521
Building collapse, Rochester, N. Y...1, 5
By-pass gates failure, Colorado River.. 210, 211
Cave-in of shaft, Bakersfield, Cal.... 318, 319
Chimney failure, Louisville, Ky..156, 157
Earth slip, Wachusett Reservoir, Mass. 464, 466
Gas asphyxiation.... 262
Railway:
Bronx Park, N. Y., Derailment..297, 298
Mineral Point, Pa., Derailment.... 264
Terra Cotta, D. C., Position of block stations 50
Roof, Reinforced concrete, struck by falling beam.... 517
Surface cave-in, Erie R. R., Weehawken, N. J.......224, 225
Air compressor, Taylor hydraulic.... 492
Anchor, Four-foot multiplane.... 40
Arches:
Competitive designs, Milwaukee, Wis. 178, 181
Concrete:
Germany 480, 481
New Haven, Conn.... 393
Piney Branch, Washington, D. C.... 682, 683
Walnut Lane, Philadelphia........117, 119
Elastic theory in reinforced concrete.. 490
Hell Gate, New York.... 583
Masonry, Orleans, France.... 345
No-hinged steel, Oakland bridge, Pittsburg, Pa........528, 532
Reinforced concrete:
Decatur, Ill., Skew.... 323
Sandy Hill, N. Y........497, 503
Weisberg, Ind.... 538
Ypsilanti, Mich.... 490
Three-hinged:
Germany 480, 481
Minneapolis, Minn.......171, 175
Washington, D. C., Long Bridge.... 292
Axlebox, Flexible, for Italian locomotive. 571

B.

Bangs, A. M..... 104
Bathometer 479
Beams:
Reinforced concrete, Fire test.... 332
Reinforcement with U-shaped shear bars 455
Benzenberg, G. H.....†108
Block, Quintuple wood.... 337
Block signal system, P. R. R.......506, 507
Blowpipe, Oxygen-acetylene, for welding processes.... 707
Blue-printing machine, Electric.... 566
Boilers:
Roberts, for steam car.... 446
Steam motor car.... 260
Steam motor omnibus.... 258
(See also Locomotive boilers and fireboxes.)
Bond between concrete and steel....335, 345
Bore holes, Apparatus for testing....568, 569
Breakwaters:
Concrete, Harbor Beach, Mich....339, 341
Stone, Cleveland, O........565, 566
Bridge abutment, T-section.... 187
Bridge floors. (See Floors.)
Bridges:
Brooklyn, Terminal........140, 141, 576
Cables at tops of towers.... 423
Decatur, Ill., Reinforced concrete skew arch 323
Germany, Three-hinged concrete..480, 481
Grier, Cape Colony.... 572
Hamburg, Germany, Center-bearing draw 378, 379
"Hanging," Royal Gorge, Colo.... 217
Hell Gate, New York.... 583
Minneapolis, Minn., Three-hinged arch. 171, 175
New Haven cut.... 393
Oakland, Pittsburg, Pa., No-hinged steel arch........528, 532
Orleans, France, Masonry arch.... 345
Pin-connected truss.... 511
Piney Branch, Washington, D. C., Concrete 682, 683
Raising, to allow passage of dredge.... 391
St. Lawrence, Cantilever.... 53
Sandy Hill, N. Y., Reinforced concrete 497, 503
Shelbyville, Ind., Reinforced concrete. 538
Stresses, Instrument for recording.... 680, 681
Thief River Falls, Minn., Pin-connected 71
Towanda, Pa., Lehigh Valley R. R.. 277, 279
Walnut Lane, Philadelphia, Concrete arch 117, 119
Washington, D. C., Long Bridge.... 292
Weisberg, Ind., Reinforced-concrete arch 538
Ypsilanti, Mich., Reinforced concrete... 490
Buckets:
Clam-shell 608
Scraper 324, 325
Buffer-trolley 103
Buffers, Hydraulic.... 103
Buildings:
Allis-Chalmers Co., Reinforced concrete 46, 48
Boat house, Ottawa, damaged by ice shove 521
Eastman, Rochester, Collapse.... 1, 5, 130, 131
El Paso, Tex., Shop, Concrete, brick and steel........12, 13
Engineering Societies........22, 467
Factory, Notodden, Norway........150, 151
Ferracute Machine Co., Bridgeton, N. J. 112
Kern River power-house.... 319
Metropolitan Life Building, Tower.... 49, 138, 139
Mutual Life Insurance Co., San Francisco 124, 126
Pier shed, East River........25, 26
Ransome Concrete Machinery Co., Plainfield, N. J........58, 59
Steelwork after many years.......124, 126
Tilted warehouse, Tunis, Africa....458, 459
Warehouse, Chicago, Reinforced concrete 346, 347

C.

Cab signals, Automatic.... 486
Cableways, A-frame center support.... 279
Caissons:
Dock wall construction.... 64
Tunnels under Seine, Paris.......400, 401
Canals:
Cross-sections, Effect of changes upon rate of flow.... 631
Linings, in California.......612, 613
Sheet steel........430, 431
Car-wheel tread and flange.... 209
Car wheels, Flange wear.... 527
Cars:
Clearance-measuring, B. & O. R. R. 639, 640
Counter-weight, for incline.... 103
Drop-bottom 641
Electric:
Double-deck, London.... 315
Gyroscope mono-rail.... 598
Underground, London........316, 317
Flat, with truss cables........644, 645
Gondola, Steel frame.... 641
Holland sleeping.... 74
Interurban service, Oneida Ry.... 709
Steam motor, Mo. Pac. Ry........445, 446
Steel, P. R. R........672, 675
Track shifting, Panama R. R.... 636
Centering for street railway conduits, Collapsible 315
Chain, Weldless steel.... 696
Chaining apparatus for surveying.... 291
Chimney:
Reinforced concrete:
Design 21
Failure 156, 157
Steel, Method of rebuilding.... 289
Cinder pits, Fireproof.... 13
Clearance-measuring rod, B. & O. R. R. 638
Coal mines, Methods of survey....584, 586
Cofferdams:
Ellsworth, Me.... 557
Long Key—Conch Key viaduct.... 504
Metropolitan Ry. tunnels, Paris.... 401
Colorado River break, Closure work.... 210, 211, 545, 546
Column footings, Reinforced concrete.... 132
Column forms:
Allis-Chalmers Co., Shops.... 48
Detachable 358
Column formulas, Plot of.... 136
Columns:
Connection with girders.... 454
Metropolitan Life Building, Tower.... 138, 139
Reinforced concrete, method of building 12
Reinforced-concrete wall construction. 58, 59, 346
Compressed air plant, Hydraulic.... 492
Concrete:
Details of construction........98, 99
Expansion joints........474, 475, 653
Proportioning 601
Concrete form separator.... 379
Conduit lining, Reinforced concrete.... 352
Connecting rods on locomotives....416, 417
Contractor's plant, Bridge piers, Towanda, Pa.... 279
Conveyor, Belt.... 205
Copper-depositing process, Cowper-Coles. 402, 403
Coupling rods on locomotives.... 417
Crane track on dry dock, Concrete.... 512
Cranes:
Balanced cable.... 205
(See also Derricks.)
Crank shaft forgings, Welded steel.... 707
Curb and gutter, Concrete.... 322
Current meters:
Price 263
Rating, through ice.... 362
Curved lines, Measurement of.... 516

D.

Dams:
Ashokan Reservoir, N. Y.... 519
Big Rapids, Mich.... 374
Clackamas River, Cazadero, Ore..701, 704
Cold Springs, Ore........250, 253
Ellsworth, Me........557, 559
Empire Reservoir, Colo.... 8
Experiments on material....250, 253, 490
Sluicing gates, Roosevelt........589, 591
Sugar Loaf, Colo.... 452
Testing material from bottom of.... 490
Derricks:
Floating, for handling riprap......560, 563
New York Barge Canal.... 54
Steel, with scraper-bucket.... 325
(See also Cranes.)
Diagrams:
Air supply, Weehawken South tunnel, Penn. R. R.... 231
Arch deflection. Piney Branch bridge.. 683
Bacterial contents of water.... 152
Bridge members, Impact tests.... 681
Centrifugal pumps.... 37
Compressive strength in masonry materials 330
Concrete proportioning........599, 602
Current meters, Ratings for typical.... 263
Dams, Experiments on earth materials. 250, 252
Earthwork, Scaling quantities from profile 245, 357
Elevators, Capacity of.... 482
Flows in rectangular conduits.... 540
Highway traffic, Illinois.... 321
Horizontal compression members.... 404
Lubrication tests on lard and machine oils at high temperatures.... 675
Proportioning reinforced - concrete beams ....†460
Rainfall, California.... 29
Reinforced-concrete beams:
Design and analyses........686, 687
Economy in design........686, 687
Fire test.... 332
Diagrams: (Continued.)
Retaining walls:
Design 449, 451
Overturning moments ....†460
Steel, Recovery from overstrain....334, 335
Stream discharge.... 375
Stresses in columns........420, 422
Tulare Lake, Fluctuations.... 29
Water consumption, New England and Richmond, Va.......342, 344
Dock wall, Reinforced concrete.... 65
Drafting instrument, Economic.... 658
Drains, Tile, for reclaiming land....284, 285
Dredges:
Harbor improvement, Mich......145, 148
"Independent".......653, 655
Skid, on Chagres River.... 638
Dryer, Rotary, Atlas.... 649
Dynamometer tests on railway trains. Recording machine........616, 617

E.

Earth slip, Wachusett Reservoir....464, 466
Electric power plant, Portland, Ore.... 699, 706
Electric railways:
Conduit system........313, 315
Gyroscope mono-rail.... 598
London, Engla 311, 315, 618
Sydney, N. S ..., Counterweight device........102, 103
System of electrical supply.... 618
West Shore R. R., Utica to Syracuse, N. Y.......708, 709
Elevated railway, Noise-deadening device 219
Ellipse, Method of constructing.... 388
Engineering staff, P. R. R., Hudson R. tunnels 249
Engine house, Rectangular, with radial tracks........642, 643
Engines:
Dredge 146, 148
Mine hoisting, with Corliss valve gear. 468
Steam motor car.... 261
Steam motor omnibus.... 259
Excavation, Hydraulic.... 540
Excavators:
New York State Barge Canal.....607, 609
Scraper 324, 325
Expansion joints in concrete work..474, 475
Extensometer for recording deformations of bridge members under stress.. 680, 681

F.

Filters, Sewage:
Blanket growths of micro-organisms.. 380
Experimental:
Baltimore, Md........235, 237
Waterbury, Conn........238, 241
Sprinkler motor.... 485
Sprinkling, Andover, Mass.......399, 400
Fireboxes. (See Locomotive boilers and fireboxes.)
Flange, Car wheel.... 209
Floors:
Eastman Building, Rochester, Test.... 131
Marti system, Concrete.... 177
Metropolitan Life Building, Tower.... 139
Pin-connected truss bridge.... 511
Plate-girder deck bridges, Reinforced concrete 539

Plate-girder deck bridges, Reinforced concrete 539
Walnut Lane Bridge, Philadelphia.... 119
Warehouse 347
Form separator, Concrete............... 379
Forms for columns and girders:
Allis-Chalmers Co., *Shops............ 48
Detachable 358

G.

Gaillard, D. DuB........................ 290
Gas engine road roller.................. 453
Gas main, Arrangement, Winooski, Vt... 262
Girders:
Connection with columns.............. 454
Flange-rivet design.................. 163
Floor, Warehouse.................... 347
Forms for........................... 48
Little Warrior River bridge, Ala........ 275

*refers to illustrations and † to insets.

Girders: (Continued.)
Plate-girder design ... 713
Roof, Chicago tunnels ... 254
Goethals, G. W. ... 290
Grading, Hydraulic ... 503
Grinding machines for track work ... 408
Gutter and curb, Concrete ... 322

H.

Harbor, New York ... 579
Hoist, Balanced three-cylinder air motor. 214
Hoisting engine, Corliss valve gear ... 468
Hunt, R. W. ... †108
Hutton, F. R. ... †108
Hydraulic excavation ... 540

I.

Ice shove on Ottawa River ... 521
Inkstand, Pen-filling, for draftsmen ... 214
Insets:
Overturning moment on retaining walls ... †460
Presidents of engineering societies ... †108
Reinforced-concrete beams ... †460
Insulator, Umbrella type ... 270
Intercooler for air compressors, Vertical. 45
Irrigation:
Bijou District, Colo ... 8
Egypt, Sheet steel canal ... 430, 431
Umatilla Project, Ore ... 250, 253

J.

Jacks:
Drawbridge lifting ... 378, 379
Track lining ... 457

L.

Lathe with electric motor on head ... 112
Lava flow, Mauna Loa, Hawaii ... 471, 473
Levee construction, Colorado River ... 545, 546
Leveling rod, Tape ... 456
Level, Bostrom ... 257
Locomotive boilers and fireboxes:
Expansion side sheets, Laughridge type ... 690, 691
Great Northern Ry., England ... 414
Italian ... 571
Oil-burning ... 33, 35
Radial stay type ... 412
Locomotive tube cleaner ... 35
Locomotives:
Atlantic type ... 297, 411, 414, 415, 417
Electric, N. Y. C. & H. R. R. R. ... 297
English ... 411, 417
Italian, Balanced-compound, with cab in front ... 570, 571
Logging, for running on snow ... 288
Oil-burning ... 413
Pacific type, P. R. R. ... 671

M.

Manhole, Reinforced concrete ... 287
Maps:
Alaska Central Ry ... 200
Ashokan reservoir, N. Y. ... 518
Buffalo, N. Y., Water-works intake ... 359
Chicago elevated railways, Union Loop. 122
C., C., C. & St. L. Ry ... 535, 537
Coal mine ... 585
Empire Reservoir, Bijou Irrigation District, Colo ... 8
Erie R. R., Bergen Hill, N. J. ... 204
Harbor Beach, Mich., Breakwater ... 340
Hawaii, showing lava flow ... 472
Hudson River rapid transit tunnels ... 14
London, Underground railway system ... 316
Los Angeles aqueduct ... 94
Mexican Central Ry., Pacific extension. 376
New York Harbor ... 578
Panama R. R. ... 636
Paris, Metropolitan Ry. tunnels ... 400
Philippine Islands ... 692
St. Louis, Mo., Bridges ... 333
Tulare Lake Basin, Cal ... 27

Maps: (Continued.)
West Shore R. R., Utica to Syracuse, N. Y. ... 708
Willamette Falls, Oregon ... 700
Metal cutting ... 206, 207
Mono-rail car ... 598
Motor vehicles:
Clarkson steam omnibus ... 258, 259, 312
Gasoline omnibus ... 312
White steam car ... 260, 261
Music, Electrical, Telharmonic system ... 234, 235

N.

Nitrates, Artificial production ... 150, 151
Noise-deadening arrangement, Chicago elevated loop ... 219
Nozzles, Sewage filters ... 240, 241

O.

Oil-burners for locomotives ... 33, 35, 413
Oliver, W. J. ... 104
Omnibus. (See Motor vehicles.)

P.

Paving for streets with heavy grades ... 286
Pier shed, East River, N. Y. ... 25, 26
Piers:
Long Key-Conch Key viaduct ... 504, 505
Oakland bridge, Pittsburg, Pa ... 530, 531
Orleans, France, Masonry arch bridge .. 345
Pivot pier of draw span, Hamburg ... 378
Sandy Hill bridge, N. Y. ... 500, 501
Towanda, Pa., Railway bridge ... 277, 279
Pile-driving records ... 596
Pile follower, Cast-iron ... 374
Piles:
Cylinder ... 718
Steel sheet ... 374, 375
Pipe, Lock bar, Kronauer ... 646
Pipe joints ... 659
Pipe subways ... 280, 283
Plate-girder design ... 713
Pocatello Water Co. ... 491
Power-houses, Cazadero, Ore ... 705, 706
Press for sealing lock-bar pipe ... 646

R.

Rail fastening for steel ties, Wedge-clamp ... 271
Rail joint, Trolley railway, London ... 315
Rail sections, 100-lb. rail ... 710
Rails:
Grooved girder, for street railways ... 567
Wide base ... 657
Railway accidents. (See Accidents.)
Railway alinement ... 163
Railway terminals:
Brooklyn Bridge, Manhattan end ... 140, 141, 576
Mo. Pac. Ry., Dupo, Ill ... 159
Switching methods ... 158, 159
Railways:
Alaska Central ... 199, 201
Chicago Division, C., C., C. & St. L. ... 535, 539
Erie, Bergen Hill, N. J. ... 204
Lehigh Valley, Old and new alinement. 278
Oregon R. R. & Navigation Co. ... 525, 526
Panama ... 635, 638
Recording machine for dynamometer tests on railway trains ... 616
Reinforced concrete:
Bond between steel and concrete ... 335
Construction with reinforcement of structural shapes ... 454, 455
Proportioning beams ... †460
Reinforcing bars:
Bond test ... 177
Device for bending ... 658
Wedge splice for twisted rods ... 679
Reservoirs:
Ashokan, N. Y. ... 519
Earth slip, Wachusett ... 461, 466

Retaining walls:
Design of ... 448, 451
Overturning moment ... †460
Puget Sound, Concrete ... 512
Roadbed, P. R. R. ... 120
Road-rollers:
Fitzgerald tamping ... 367, 543
Gas engine ... 453
Roofing tile, Reinforced concrete ... 358
Roofs:
Cantilever, in warehouse ... 347
Eastman Building, Rochester, Test ... 130
Reinforced concrete, struck by falling beam ... 517
Sawtooth, for warehouse shed ... 273
Tunnels, Chicago ... 255, 256
Rope-drive problem ... 385, 463, 623, 625
Rousseau, H. H. ... 354

S.

Sand chutes, Bijou Irrigation District, Colo ... 8
Sand ejector and washer, New Haven filter plant ... 508
Scraper excavators ... 324, 325
Screws and taps, Standard proportions for ... 676
Sea-anchor, Four-foot multiplane ... 40
Sergeant, H. C. ... 168
Septic tanks:
Baltimore experimental works ... 236
Cameron ... 348
Waterbury, Conn., experimental works. 239
Sewage filters:
Andover, Mass., Sprinkling ... 399, 400
Baltimore, Md., Experimental ... 235, 237
Blanket growths of micro-organisms .. 380
Sprinkler motor ... 485
Waterbury, Conn., Experimental ... 238, 241
Sewage purification tank, Cameron ... 348
Sewers, Brooklyn, N. Y., Reinforced concrete ... 287
Shaft cave-in at Bakersfield, Cal ... 318, 319
Sheldon, Samuel ... †108
Shovels:
Electric ... 63
Steam ... 609
Siebert, W. L. ... 290
Signal systems:
Automatic cab ... 486
Block, P. R. R. ... 506, 507
Slide rules ... 206, 207
Sluicing gates, Roosevelt dam ... 589, 591
Smokestack, Steel, Douglas, Ariz ... 166, 167
Sounding recorder, Automatic ... 479
Sprinkler motor for sewage filter ... 485
Stand-pipe, Attleboro, Mass., Reinforced concrete ... 212, 213
Steam shovel excavation ... 609
Steamships, Hull construction ... 368, 370
Steelwork:
Condition after earthquake ... 124, 126
Design of ... 394, 396
Stone crusher, Rotary, Symons ... 432
Stone-crushing plants:
Bergen Hill, N. J. ... 205, 206
Redlands, Cal ... 365
Street railway track supported on wooden ties ... 69
Subways. (See Tunnels.)
Survey for Croton Falls Reservoir. 30, 32, 111
Surveying coal mines ... 584, 586

T.

Tamping roller, Fitzgerald ... 367, 543
Tanks:
Locomotive fuel oil ... 526
Steel, Welding with oxygen-acetylene blowpipe ... 707
Tape-leveling rod ... 456
Tape-reading device, Long-distance ... 358
Telharmonium ... 234, 235
Tide-gage, Compressed air ... 220
Ties, Steel, on street railway ... 311
Tile, Reinforced concrete, for roofing ... 358
Toggle-joints in no-hinged steel arch. 529, 530

Track:
Conduit electric railways ... 315
Construction to prevent yielding under pressure ... 243
Freight terminals ... 159
Grade crossing, London conduit line ... 314
Lining with jacks ... 457
Manhattan terminal, Brooklyn Bridge ... 576
N. Y. Central, Woodlawn accident ... 297
Oneida Ry., Electrified section ... 708
Roadbed of P. R. R. ... 120
Shifting, Panama R. R. ... [illegible], 638
Street railway:
Construction in paved streets ... 4
On steel ties ... 11
On wooden ties ... 69
Superstructure design ... 186
Transit foresight ... 326
Transmission line supports:
Brownsville, Pa., reinforced-concrete towers ... 476, 478
Fort Wayne, Ind., Concrete poles ... 484
Oneida Ry., Steel towers ... 708
Travelers:
Arch-bridge construction ... [illegible]
Sheet-steel canal construction ... 431
Trestles:
Alaska Central Ry ... 201
Design of timber ... 610, 611
Tricycle, Railway motor ... [illegible]
Trucks:
Gondola car ... 641
Steam motor car ... 146
Steel passenger cars ... 674, 675
Turntable bearing, for flat cars ... 645
Tunnels:
Alaska Central Ry ... 201
Can. Pac. Ry., Palliser, B. C. ... 424, 428
Cast-iron lining ... 718
Chicago River ... 254, 256
Erie R. R., Bergen Hill, N. J. ... 204
Metropolitan Ry., Paris ... 400, 401
Pennsylvania R. R.:
Battery tunnel ... 717, 718
Engineering staff, Hudson River tunnel ... 219
Hudson River ... 223, 231

V.

Valves:
Balanced inlet, for discharge pipes of dam ... 452
Throttle, for graduated opening in locomotives ... 570
Viaducts:
Kansas City, Mo., Steel ... 132
Key West Extension, Florida East Coast Ry. ... 504, 505
Milwaukee, Wis., Competitive designs ... 178, 181
P. R. R., New York ... 583

W.

Wagon tank for distributing liquid asphalt ... 393
Walbank, W. McL. ... 371
Walls:
Concrete, with expansion joints ... 653
Concrete block ... 475
Porous terra-cotta blocks ... 165
Wash-drill borings, Apparatus for ... 54, 55
Water-power plants:
Ellsworth, Me. ... 558
Portland, Ore ... 699, 703
Water sterilizer and softener ... 272
Water supply, Los Angeles, Cal ... 93, 96
Water-level indicator, Compressed air ... 220
Waterproofing, Well shaft ... 202
Water-wheel, Bamboo ... 245
Well sinking:
Flowing well, Salem, Va ... 154
Waterproofing shaft ... 202
Wheels, Abrasive ... 627
Towers:
Reinforced concrete ... 476, 478
Steel ... 708
